French and English seminary for Young Ladies, corner of E and 9th streets, Washington city.

THE location of this seminary is one of the most desirable in the city, on account of its healthy and airy position. The house is large and commodious, with ample grounds and other facilities for amusement and recreation. The principal, so well and favorably known in this city, and in New York, from her long experience in teaching, hopes to give entire satisfaction to all who may confide their daughters to her care. She is a native of France, and familiar with its language and literature, and conversant with the best and easiest modes of imparting to her pupils a perfect knowledge of that language, so that they can not only read and write, but speak it fluently. She has secured able assistants for various departments, so that all branches of an English as well as French education will be thoroughly taught. Pupils who reside in the family have the peculiar advantages of hearing, and conversing at all times in the French language, and of perfecting themselves in the science of musse, being under the surveillance of an experienced teacher. The course of instruction, besides the usual elementary branches, includes all the higher studies pursued in the most approved northern seminaries. The discipline is mild and affectionate, yet decided, and is maintained by appeals to the affections and conscience of the pupil; it is designed, by a proper development and culture, are the great objects desired, it is the aim of the principal not so much to crowd the memory with words, as to draw forth and train the systematic and vigorous action, the observing, reflecting, and active powers of the mind. The charges to those who reside in the family are, for board and tuttion in all the branches of French and

not fail to give entire satisfaction.

The undersigned will also attend to any claims or other business which may be intrusted to his care and supervision, before any of the departments of the general government.
